RUFFY COIN

ONLY FOR NERDS

if you want to know what Ruffy Coin will
create in the Metaverse

Jump to Page 9

To have an understanding we first need
to take a couple steps back

- what is Web 3.0
- how the blockchain works
- what VR and AR means

only then we can be sure that we
understand what Metaverse means.

What is Web 3.0?

Semantic Web

The next development of the web concerns the semantic web. The Semantic Web enhances web technologies to generate, share, and connect content and text through search and analysis based on the ability to understand the meaning of words rather than keywords or numbers.

Artificial intelligence

By combining this ability with natural language processing, Web 3.0 computers can understand informations like humans to produce faster, more relevant results. They are getting smarter to meet users' needs.

3D graphics

The three-dimensional design is used extensively in websites and services in Web 3.0. Museum guides, computer games, e-commerce, geographic contexts, etc. are examples that use 3D graphics.

Connectivity

With Web 3.0, information is more closely linked to one another through semantic metadata (Semantic Web). This takes the user experience to another level of connectivity that leverages whatever information is available.

Omnipresence

The content is accessible to multiple applications via Web 3.0, every device is connected to the web, and the services can be used anywhere.

What is Blockchain?

A blockchain is a continuously expandable list of data records in individual blocks. New blocks are created according to a consensus procedure and attached to an existing chain using cryptographic procedures. Each block typically contains a cryptographically secure hash (scatter value) of the previous block, a time stamp and transaction data.

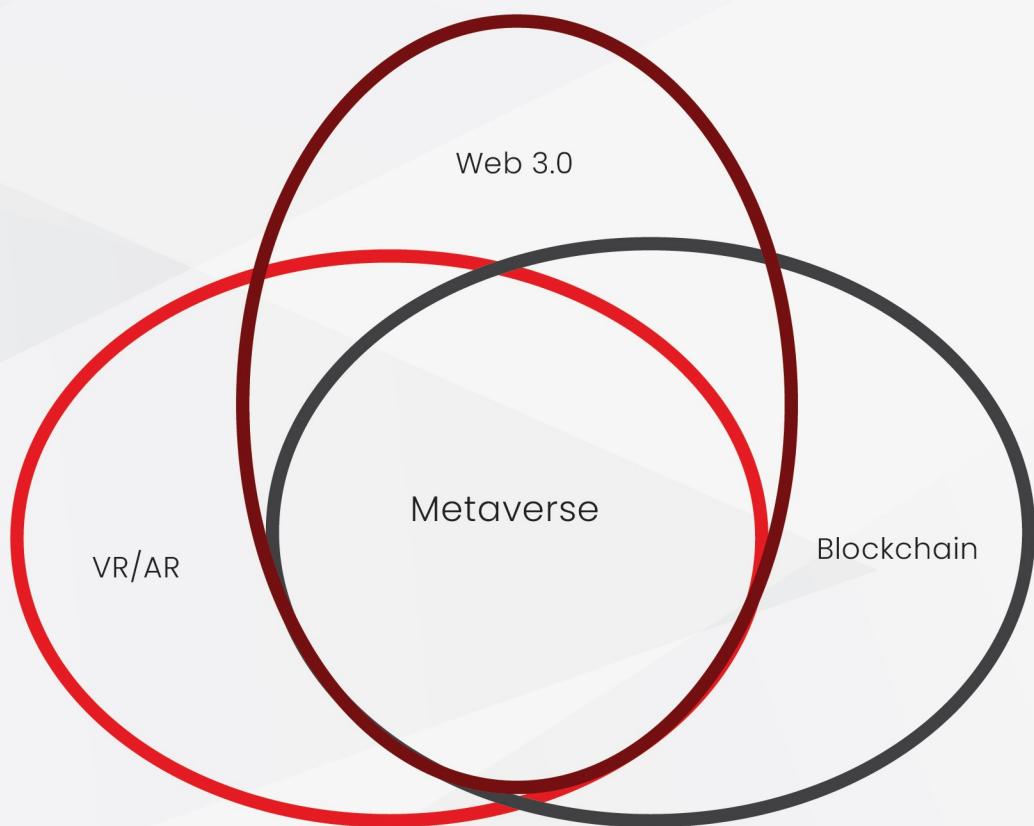

A blockchain is an example of a distributed ledger technology (decentralized account booking technology) or DLT and its functionality is similar to the accounting journal. The blockchain is therefore also known as the "Internet of value" and lays the technical basis for cryptocurrencies such as Bitcoin.

A blockchain can be used in bookkeeping if agreement has to be made on the current and error-free state in a decentralized network with many participants (see also: Byzantine error). What is documented is irrelevant for the term blockchain. It is crucial that later transactions build on earlier transactions and confirm them as correct by proving knowledge of the earlier transactions. This makes it impossible to manipulate or erase the existence or content of earlier transactions without simultaneously changing all subsequent transactions as well. Other participants in the decentralized bookkeeping then recognize a manipulation of the blockchain from the inconsistency of the blocks.

What is the „Metaverse“?

The metaverse is a collective virtual space that is created by the convergence of virtually augmented physical reality and physically persistent virtual space – including the sum of all virtual worlds, augmented reality and the Internet. The word metaverse is a suitcase word made up of the prefix meta (meaning “beyond”) and universe; the term is commonly used to describe the concept of a future iteration of the Internet, which consists of persistent, shared, 3D virtual spaces connected into a perceived virtual universe. [1] In contrast to this, a massively multiplayer online role-playing game consists of a single world. In the Metaversum, users can help shape the worlds and “live, learn, work, celebrate” there.

Who are the big player in the Metaverse?

NVIDIA CORPORATION
(NVDA)

MICROSOFT CORPORATION
(MSFT)

ROBLOX
(RBLX)

META PLATFORMS INC
(FB)

UNITY SOFTWARE INC
(U)

IMMERSION CORP
(IMMR)

AUTODESK INC
(ADSK)

SEA LTD
(SE)

AMAZON COM INC
(AMZN)

TENCENT HLDGS LTD
(700 HK)

What does it take to participate in such a virtual world?

You have to imagine the whole thing as a completely separate virtual world. Everyone who participates here has an avatar - a digital alter ego. Everyone can determine what their own avatar looks like.

Then there are virtual rooms for everything: games, meeting places, concert halls, conference rooms, shopping malls ... There are basically no limits to your imagination.

Users can meet in these virtual rooms, exchange ideas, communicate, but also listen to others or watch events.

Virtual work meetings are also possible.
But you will also be able to buy and own virtual things: land, houses, art ...

All of this already exists, especially in game worlds like Fortnite or Roblox, but it is taken to extremes in a metaverse. Because everything is really virtual here - and everything is interconnected.

Oculus Quest 2

First of all, of course, these virtual spaces have to be created first. This is no small matter and involves a lot of effort. But the Facebook group is already there: there will soon be virtual meeting places for chatting and working. But to be able to participate, you need technical equipment.

Usually people will have to put on VR glasses. When you put on glasses like this, you can no longer hear or see your surroundings - and immerse yourself completely in the virtual world. The senses are perfectly deceived. If you look to the left, you also look to the left in virtual space.

You can grab and put down virtual objects - and sometimes even move around in virtual space. In order for this to work, you not only need VR glasses, but also a relatively powerful computer and a fast internet connection.

So a lot of technical effort is required - not only on the side of Facebook alias Meta, but also on the side of the users.

What does RUFFY have to do with the Metaverse?

Metaverse is the big picture.

Companies like Facebook, Microsoft, Roblox, Fortnite, Epic Games or Tencent build parallel and independently of each other change parts to parts of the Metaverse.

With RUFFY Coin we are going to create our own world independently and focus on the entertainment sector.

Companies like **Fortnite, Roblox or Epic Games** concentrate on the "games" sector

We have made it our business to dominate the entertainment area in the Metaverse that means We are building an open world "**RUFFY World**" with different subject areas

**Entertainment Stadium
Spa & Resorts
Bars & Nightclubs**

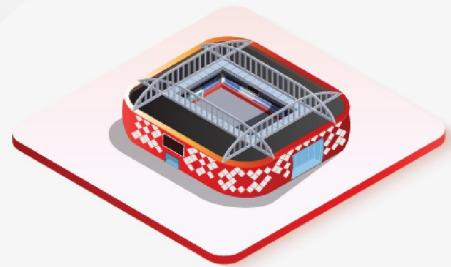

**Social-Gaming & Sport
Dating
NFT Marketplace**

Entertainment Stadium

Concert, comedy, theater, booking agency

We build stadiums for concerts, comedy and theater performances. Tickets are sold through our own booking agency.

Spa & Resorts

Beach, bar, spa, YOGA zone

We build luxurious hotel complexes directly on the beach with a sunbathing area to hang out and enjoy cool drinks. Of course, no SPA or YOGA area should be missing in the hotel resort. End the evening with relaxing music and a drink or calm yourself by participating in one of our yoga classes.

Bars & Nightclubs

Drinking, dancing, music

We build small pubs so that friends can meet and watch sports together (NFL, NBA, Champions League...) We build gigantic discos where live DJs will perform with different genres like Hip-hop, pop, rock, rap and house music.

Social gaming & sports

Sport, Fitness, Gaming

We will build gigantic fitness studios for sporting activities such as tennis, basketball, boxing, car races and many more. Those activities will have features that wouldnt be possible in the real world.

Dating

Love, Meet new Singles

We are building a cute little island called „RUFFY'S love Island”, where singles can meet, exchange ideas and get to know each other. And if you need some privacy with your loved one you can rent one of our many water bungalows.

NFT Marketplace: we call it RUFFY MALL

NFT, Merchandise, Music Store

We call it RUFFY MALL

Of course there will be an NFT marketplace for exclusive articles only available for purchase in the Ruffy World. Things like fan merchandise of musicians or wearables can be bought here.

Information

Name:	RUFFY Coin
Homepage:	https://www.ruffycoin.io

ROADMAP

PHASE 1 – 11.2021

- Concept design
- Create Mascot
- Create an international Name
- Roadmap V1
- Whitepaper V1
- Website V1
- Social Media Channels
- Start of Marketing
- KYC
- Whitepaper V2
- Techrate Audit
- Building the Community

PHASE 2 – 12.2021

- Listing on exchanges like Hotbit,
- Kucoin, MEXC
- RUFFY DEX
- Create Baby RuffyToken via Smart contract on BSC (reward token)
- Create RUFFY COIN via Smart contract on BSC (main Coin)
- Presale and Launch
- Liquidity Pool Lock
- Desert Finance and Certik Audit
- Integrating Flooz (swap & payment)
- Logo on TWT
- Listing on Coingecko
- Listing on Coinmarketcap

PHASE 3 – 01.2021

- Hire fulltime Devloper , 3D Modeling Designer, Graphic – Designer Blockchain Devloper (expert),
- Social Media Marketing (expert) architekt
- Building Prototype of Ruffy world (open world)
- Implementing Blockchain in ruffy world
- Implementing RUFFY Coin Smart contract to Ruffy world Building Event Stadium</p>

FUTURE

With such a big project we have allot of things planned for the future. Our dream is to develop our own Blockchain one day. Of course i could write down impossible things like other projects „,“ after projects but we want to be near our community and dont want to promise things we cant accomplish. Yes we will try to get listed on Binance, yes of course we want that the project will become the next 1000 X but these things need time and we dont want to rush anything. We will create something big and every early investor will be a big name in the Metaverse when we have accomplished our goal but as i said those things take time, even Rome wasnt build in one day.

UTILITYS

RUFFY Coin (RUFFY) Swap

We are one of the first Metaverse Entertainment coins to offer a live decentralized swap directly on our website right after launch and later on even in the Metaverse.

RUFFY Coin (RUFFY) Card Pay

We are one of the first Metaverse Entertainment coins to offer credit card for crypto payments directly on our website so even people who dont know much about crypto currencies can become part of the future.

RUFFY Coin (RUFFY) BABY RUFFY

You will get rewarded by BABY RUFFY our own reward coin listet on PancakeSwap with 0% tax.

RUFFY Coin (RUFFY) NFTs

One of our largest project in the works is our NFT marketplace. We will allow users to create and buy/auction their own NFTs.

RUFFY Coin (RUFFY) Swag

A merchandise store for \$RUFFY holders to proudly support their favorite project in the real world.

RUFFY Coin (RUFFY) Metaverse

We are starting Entertainment on the Metaverse we build Entertainment Clubs, Resorts, Social-Gaming, Dating, NFT and much more on the METAVERSE

Values

TRANSPARENCY

RUFFY Coin (RUFFY) is decentralized and supported by its community.

We encourage open communication and believe that trust, transparency, and community are the three pillars to build a strong long living project.

TRUST

In the Cryptocurrency market trust is indispensable. That means full transparency not only in the community and development but also in security efforts. RUFFY Coin (RUFFY) will be audited by a third partys like dessert finance and has locked majority of the tokens. No rug pulls with us.

COMMUNITY

With RUFFY Coin we strive to become one of the fastest growing and most loved communities in crypto we believe that only together we are strong.

Community is everything and RUFFY Coin strives to include everyone from around the globe. We have multiple telegram channels dedicated to our international communities.

LONGEVITY

RUFFY Coin is in for the long haul. The decentralized community is fostering and adopting long term development of the ecosystem and foundation in efforts to drive real use cases, and greater rewards beyond any temporary trends.

TOKENOMICS

RUFFYCOIN Smart Contract

LP SWAP:	Pancakeswap
Token Name:	Ruffy Coin
Symbol:	RUFFY
Initial Supply:	100.000.000.000
Decimals(1-18):	18
Create/Owner:	0x53702280282220a8DE738068443E33F03F7581bA
Marketing Tax:	3%
Marketing Wallet:	0x0b50bdC52A5190E4407f75abab4094C4E39Dc9f6
Developer Tax:	3%
Developer Wallet:	0x53Ea97382D1C69fe011567432f8c5B9513b3AB82
Holders reward fee:	3%
Reward token:	0x241d44a548066afcd4550f0d1324295954ce342 (BABY RUFFY)
Automatic LP:	3% (automatic add liquidity to pancake swap)

All taxes stay in the "Ruffy Ecosystem" this means that all taxes are collected and kept in Baby Ruffy, our Rewards 0% Tax token and are only sold when needed for marketing or development.
This means that Baby Ruffy constantly stabilizes itself
